

Hello and welcome to the new Parish Plan bulletin..... we hope to keep this updated on a regular basis, so that you can view at any time what the group are up to. There are currently 7 members and already we have discovered that we all bring different skills and experience to enhance our activities!

The Charlton Parish Plan group is a core body to help keep the Plan organised and democratic. All Parish Plan meetings will be open to ANYONE who wishes to take part or submit ideas or views on certain topics. These topics will be advertised prior to the meeting to enable feedback, either by submitting comments via the web, phone or written notes or of course, attending the meeting to discuss topics in more depth.

We have already identified the main discussion points which will be most important to Charlton and it's future...the top three of which are.....

PLANNING – DEVELOPMENT- AGRICULTURE

These headings come with some weighty issues.....everything from housing needs...to.....development affecting flooding risk....to.....affect of agricultural development on the landscape and wildlife.

We would love to hear your thoughts, opinions and ideas!!!

**NEXT CPP MEETING IS IN THE OLD SCHOOLROOM ON THURSDAY
